

## SIEM REAP DECLARATION OF COMMITMENT

1. We, the Executive Directors of the Linking Organisations of the International HIV/AIDS Alliance, assembled in Siem Reap from 18-21 March 2019 for the annual Directors' Meeting, **to celebrate our achievements** around building a strong partnership of national civil society organisations that has become a leading force in the HIV response locally and globally, and **to mark the evolution of our network into the Frontline AIDS partnership.**
2. We declare our commitment **to greater engagement and collaborative action together** as Frontline AIDS, and to ending the epidemic of AIDS by 2030, taking into account our differing contexts in regions and countries throughout the world, as follows:
  - We will draw upon 25 years of technical expertise working with marginalised populations, to solve the toughest challenges that are too often avoided and ignored.
  - We will act as one globally diverse movement of people and organisations to deliver proven locally relevant innovations at scale, reaching those too often excluded.
  - We will constantly re-think what we do and challenge ourselves and our partners to do things differently.
3. We have undertaken **to develop and implement a Frontline AIDS Plan of Action** to set out our priorities and determine how our partnership will contribute to the HIV response.
4. We are **proud to be founding partners of the Frontline AIDS partnership.** Together with others, we commit to igniting innovations that will break down the social, political and legal barriers that marginalised people face and which stand in the way of a future free from AIDS.
5. And finally, we commit to learn from our own and other Frontline AIDS partners' experiences, **contributing our strong leadership and innovative ideas**, because we know that no one organisation can end AIDS alone.
